

TPC6000-A082

8-inch Intel Bay trail fanless industrial panel PC

Touch Panel PC

Specifications

System

Processor	: Onboard Intel Bay trail J1900 quad-core processor, clock 2GHz
Chipset	: Intel Bay trail SOC (TDP10W)
Memory	: Support DDR3 2G/4G/8G memory
Hard disk	: Support SATA 2.5 "SSD, HDD and mSATA
Display	: Integrated Graphics, support VGA&HDMI
Watchdog	: Programmable from 1 to 25 seconds
OS	: Win7/Win8/WES7/Linux/Android

I/O port

LAN	: 2 Realtek RTL8111F 1000 Mbps Ethernet port
COM	: 6 RS232 (COM1, COM5 and COM6 optional RS485)
USB	: 1 USB 3.0 and 3 USB2.0 ports
Speaker	: Built-in small Speaker
Expansion	: 1 Mini-PCIe slots, scalable 3G, Wifi card
Other I/O	: Power switch, DC IN, VGA, HDMI

LCD

Size / Type	: 8" TFT LCD
Resolution	: 800×600
Backlit	: LED
MTBF	: 30000 hours
Brightness	: 250cd/sqm
Display area	: 162×121.5mm

Institutional

Front Panel	: Aluminum-magnesium alloy die-casting, cover with PET film, IP65 degree of protection
Box structure	: High-strength sheet metal structure, high temperature paint handling
Cooling mode	: Large area designed finned heat sinks
Mounting	: Supports Panel and VESA mounting
Overall size	: 236×188×69mm(W×H×D)
Case Size	: 216×168×63mm(W×H×D)
Hole Size	: 219×171mm(W×H)
Weight	: 2.4kg

Touch screen

Size / Type	: 8 inch High Temperature five-wire resistive screen
Resolution	: 4096x4096
Click life	: 250g efforts, 35 million times
Draw life	: 250g efforts, 5 million times
Transmittance	: More than 81%

Power and Environmental

Working tem.	: -20~+60°C (Wide temperature SSD)
Storage tem.	: -30~+80°C
Relative humidity	: 10~95%@40°C (No condensation)
Vibrating	: 50~500Hz, 1.5G, 0.15mm Peak to peak
Shock	: 10G/peak (11ms sec)
Power input	: DC 12V (optional DC24V)
Consumption	: 16 watt

Dimensions

I/O definition

I/O definition:

A: COM 6	B: COM 5
C: Power switch	D: DC IN (12V)
E: COM 1	F: COM 2
G: COM 3	H: COM 4
I: LAN	J: USB *4
K: VGA	L: HDMI
